

You Can Shine

Words and music by Bryan Moyer Suderman

1. God put the stars in the heavens
God makes them shine so brilliantly
God put those stars up in the heavens
And God put you here with me...

Chorus:

So you can shine (you can shine)
like a star in the heavens
You can shine (you can shine)
like a star in the night
You can shine (you can shine)
like a star in this world
You can shine, you can shine

2. When you shared your lunch with Ainsley
When you helped put toys away
When you helped your friends stop fighting
You were shining like a star today... (Chorus)

3. Sometimes you may not feel like shining
Sometimes your light is growing dim
Sometimes we all could use reminding
Just who's the one who'll help us to shine again...

Last chorus:

So we can shine (we can shine)
like the stars in the heavens
We can shine (we can shine)
like the stars in the night
We can shine (we can shine)
God's great big constellation
We can shine, we can shine.

Repeat first chorus
